

-Duluth Housing 1000-

Duluth is in serious need of new housing units. The Affordable Housing Coalition has created a goal challenging the city of Duluth to create 1000 new units of housing, 33% of which will be affordable, by the year 2010. This goal will help to alleviate stress on the existing housing stock, while creating a base for future growth.

The affordable housing coalition believes that *Duluth Housing 1000* is a worthy plan that deserves action from Duluth's elected officials and leaders. Help support a stronger and more livable Duluth!

I, _____, agree with the *Duluth Housing*
(Print name)
1000 goal and I pledge to help make this goal a reality.
